The Two Week Curse Michael Chatfield

Thrust into an unknown, unwanted situation, most would feel panic, fear anger and fall into chaos. Erik and Rugrat are not immune to those feelings, but they have stepped into chaos so many times, it is simply a different challenge.

Two weeks ago, Erik lost his legs and his arm.

Today he got a message.

"You have been randomly selected to join the Ten Realms. One may choose to ascend the Ten Realms, thereupon making a request to the Gods of the Realms.

Only those who are Level 10, 20, 30, 40, 50, 60, 70, 80, and 90 may ascend to the next realm.

Fortune favors the strong!"

For a retired combat medic and Marine Recon sniper, the Ten Realms offer a clear challenge and sense of purpose that they had only found on the battlefield.

How much trouble can you get into in a new realm?

Ubik says

I'm coming to believe that there's an inverse relationship between goodreads ratings and quality of the writing. I'm only still listening to this to collect those embarrassingly bad quotes.:

"Eric watched the report with dead *eyes* .
It was the same report he had seen before he went out on his last patrol.
He closed his *eyes* as tears appeared at the corners of his *eyes*."
Said it before, self publishing was a mistake.

Or the scene here he imagines his gravestone:
"Here lies Eric west. Used by many, loved by few.
And weakling."

edit: gave up pretty quickly after that, it has really no redeeming qualities.

Russell Gray says

This one started a bit rough, but ultimately it came together. There are a few things that I had to overcome in order to enjoy this book:

1. One of the main characters is named Rugrat
2. The prose reminds me of something that came out of a google translator
3. There is a ton of exposition and a distinct feeling that things are happening because the plot needs them to rather than the characters organically discovering things by trial and error.

Despite these issues, I ended up actually liking this story quite a bit. Maybe I have a soft spot for characters that are wholesome decent guys fresh out of the military. I actually got quite a few similar vibes to Limitless Lands here. The main characters are military types with good hearts, the prose and dialogue have tons of room for improvement, and there is a distinct blend of things found in the story that is unique.

This story is a mix of leveling up like a standard rpg game and a cultivation style of compressing mana. It feels a bit cluttered and messy early, but it manages to throw so much random stuff at the reader that a few things can't help but stick and keep you reading. There is also a significant focus on the crafting and base-building elements here though there is plenty of fighting to be had as well.

It's weird that the author seems to be a British transplant living in Canada since this story really reminds me of something originally written in a different language that has been machine translated to English. I will at least read the next book in the series and see how things go from there.

Naomi says

Fun story, but in need of some serious editing.

From Reader Review The Two Week Curse for online ebook

From reader reviews:

Robert Black:

With this era which is the greater individual or who has ability to do something more are more special than other. Do you want to become one among it? It is just simple strategy to have that.
